

Program for Advancing Strategic International Networks to Accelerate the Circulation of Talented Researchers
Japan-ASEAN Collaboration Research Program on Innovative Humansphere in Southeast Asia:
In search of Wisdom toward Compatibility Growth and Community in the World

Report

Period of inviting: Feb 25th-March 8th, 2015

Place of accepted: Advanced Institute of Energy Research, Kyoto University, Uji campus

Name: A/P Jishan Wu

Institute/University: Department of Chemistry, National University of Singapore

During this period, A/P Jishan Wu has met the colleagues in the Advanced Institute of Energy Research, hosted by Professor Hiroshi Sakaguchi. We have generated several good ideas that we can collaborate each other in the near future, for example, to synthesize stable radicals based polymers and 2D/3D networks, and to study the spin-dependent charge and spin transport.

Dr Wu also discussed other professors in the Kyoto University such as Professor Atsuhiko Osuka and established close collaboration between the groups through student exchange.

Prof. Sakaguchi kindly guided to Byodoin temple.
